10.0 OLD BUSINESS: (30 minutes)

Strategic Plan – attached

Discussion: B.3.c- Establishing indicators for career and college readiness. Is there a tool that can be used in order to be able to speed the process up? Cari discussed structures that need to be in place for the capacity to be able to address things like community service. Are there grants to help get this set up? There may be additional resources others aren't aware of, such as Chamber of Commerce. C.1.a- Added "engage and recruit students to assist the district/school in community communications, public relations and advocacy." Discussed if there are some items that can be taken out because it is now standard practice. C1.a and b could come together to cover community engagement and input, and the first bullet could be taken off. Standard practice of the budget could be pulled out (C.1.d). C.1.e has been added

pertaining to the proactive piece of releasing information from the district. D.2.b there was a change to include the expectation of the bus drivers participating in the trainings for PBIS. Board Expectations and Culture has been updated to include annual review of expectations, determine professional development for board members, interaction with stakeholders, familiarity with policies and review and acceptance of board's norms. Discussion about if it would be

more appropriate under new Board Orientation and could come out of the strategic plan. New Board Orientation could then be a workshop for all to review the job description. Suggestion of having one section that includes this information. The work has been done through committee work to allow for the process to go quicker. Prioritize the items on the strategic plan. If something comes off, determine where it would go so that it doesn't get lost. Review by committee to determine if there is standard practice that could be placed on an ongoing plan.
